

Project Description

DGMO, The official Media Office for Dubai Government contracted INC System Integrations to install, commission and test its Production Studio.

Latest Technologies were deployed. the Studio was designed to address the current requirement and future plans for the Government of dubai media office. Coupling between analysis of the current workflow and how it needs to be changed in the future resulted on a truly future project by optimizing the current & latest technologies.

The studio was equipped with 4K infrastructure by using high bandwidth installation materials, 4K viedo Keyyene video switcher by GV as well as 128x128 4K Nvision Router.

INC also installed complete lighting system including new grid and curtains.
